The Voice of Goa — since 1900

### Heritage Playcraft series launched

The Museum of Christian Art (MoCA) recently launched its Heritage Playcraft series. With art, history and education at their heart, these Do-It-Yourself (DIY) art educational kits aim to foster artistic skills, cultural awareness and creativity among young minds. The primary goal of these kits is to provide an engaging and educational activity for children and adults alike that aligns with the mission of the Museum of Christian Art - to educate and sensitise individuals to Goa's unique history, heritage, culture and ecology.

Each DIY kit focuses on one specific theme related to Goan art, history and heritage. There are six major topics covered in each kit respectively, namely Stucco, Azulejo Tile Painting, Christian

Art, Coat of Arms, Woodcarving and Kaavi. Each kit is equipped with high-quality art materials educational booklets that explain the significance of the art form.

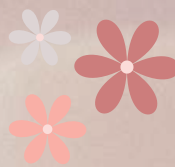

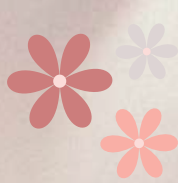

The first Heritage Playcraft Kit,

dedicated to the Azulejo Tiles, in collaboration with the Navy Children School, Goa (NCS) was launched. This launch was designed in the form of a workshop in which 30 students from NCS participated. The workshop began with a talk that introduced participants to the unique history of the Azulejos. This was followed by a demonstration to show participants how to handle the materials and paint their tiles. Finally, it was artist's galore as each participant designed and painted their own unique Azulejos tile. Going forward, MoCA's objective is to make these kits accessible to a wide audience from diverse socio-economic backgrounds so as to enable people to connect with Goa's rich history, culture and heritage.

# THE MONTHLY NEWSLETTER OF NAVY CHILDREN SCHOOL, GOA

# *From the Principal's Desk*

**Dear Readers,  
Greetings!**

**The two months of vacation flew by and we could participate in numerous activities during the last and first week of May & June 2024, respectively. The excessive heat and power cuts did not dampen the spirits of the students and teachers, who eagerly left for summer vacations.**

**The admissions for the session continued and we had bright and smiling new students amidst us.**

**The CBSE Board examination results were declared and our students triumphed in their performance.**

**Our teaching faculty underwent exhaustive training to gear up for the upcoming session and school reopening.**

**A wide range of topics were introduced which kept the staff engaged for four continuous days. This upskilling will go a long way in training them for the road ahead.**

**The school reopened once again in July to the sound of thunder and rain, welcoming the monsoons. And we are back to school with a new bag full of academics and activities galore!**

**Happy reading till our next edition!**

**Warm Regards**

**Ms Anupama Mehra**

## ONLINE FDP FOR TGT/PGT COMPUTER SCIENCE

shiji johnson (Presenting)

### AI VS ML VS DL VS DS

- **Artificial Intelligence** is when a machine acts like a human
- **Machine Learning** is one of the areas of AI, ML uses various algorithm to predict outcomes from the given data
- **Deep Learning** subfield of ML concerned with algorithms inspired by the structure and function of the brain called artificial neural networks
- **Data science** help us to find the meaning and required information from large data

The diagram consists of four overlapping circles. A large pink circle labeled 'Artificial Intelligence' contains a smaller blue circle labeled 'Machine Learning'. Inside the 'Machine Learning' circle is a smaller green circle labeled 'Deep Learning'. To the right, a purple circle labeled 'Data Science' overlaps with the 'Machine Learning' circle.
